

**A RESOLUTION ADOPTING THE HORRY COUNTY HAZARD MITIGATION PLAN**

**WHEREAS**, certain areas of Horry County are subject to periodic flooding, hurricanes, tornados, storm surge, wildfires, severe thunderstorms and wind, and other natural and man-made hazards that have the potential to cause damages to people and property within the area; and

**WHEREAS**, the Town of Atlantic Beach desires to prepare and mitigate such hazards; and

**WHEREAS**, the *Disaster Mitigation Act of 2000* and *44 CFR §201.6* require that local jurisdictions have in place a FEMA-approved All-Hazards Mitigation Plan as a condition of receipt of certain future federal mitigation funding; and

**WHEREAS**, the Horry County Hazard Mitigation Plan was developed in accordance with the regulations of the *Disaster Mitigation Act of 2000* and the guidance provided by the Federal Emergency Management Agency; and

**WHEREAS**, to assist jurisdictions and special purpose districts identified in the strategy of the Plan in meeting this requirement, the Horry County Emergency Management Department has facilitated the development of a multijurisdictional All-Hazards Mitigation Plan; and

**WHEREAS**, the Federal Emergency Management Agency has reviewed the Horry County Hazard Mitigation Plan and determined that it is compliant with federal requirements, subject to formal community adoption; and

**WHEREAS**, adoption of this plan is required for the Town of Atlantic Beach to remain eligible for certain federal mitigation grant programs administered by the Federal Emergency Management Agency (FEMA).

**NOW, THEREFORE, BE IT RESOLVED**, by virtue of the power and authority granted to the County by the Constitution and General Assembly of the State of South Carolina, the Town Council of Atlantic Beach hereby adopts the Horry County Hazard Mitigation Plan. While content related to the Town of Atlantic Beach may require revisions to meet the plan approval requirements, changes occurring after adoption will not require the Town Council to re-adopt subsequent iterations of the plan.
